

Running the server through insomnia:

ParkingSlot creation:

When a parking slot is created the following tables are populated along with parkingSlot: address, locationTag, parkingSlotDates

`http://localhost:3004/api/parkingSlot`

```
{ "street_name": "Clement Drive",  
  "slotNo": "78",  
  "street_number": "109B",  
  "postcode": "6018",  
  "suburb": "karrinyup",  
  "state": "West Australia",  
  "rate": "2.0",  
  "tags": ["City", "Elizabeth Quay"],  
  "dates": ["2022-11-25", "2022-11-27"]  
}
```

Search for parkingSlots for locationTag and date:

`http://localhost:3004/api/parkingSlot/search`

```
{ "locationTag": "City",  
  "date": "2022-11-25" }
```

Creation of slotBooking:

When a slot booking is created all the entries associated with this parkingSlot for the dates between dateFrom and dateTo both inclusive are deleted.

`http://localhost:3004/api/slotBooking`

```
{ "dateFrom": "2022-11-25",  
  "dateTo": "2022-11-27",  
  "parkingSlotId": "4",  
  "price": "20.00" }
```

Creating a user:

`http://localhost:3004/api/user`

```
{ "first_name": "parija",  
  "last_name": "parekh",  
  "email": "parija.parekh@gmail.com",  
  "password": "abc18107" }
```

Login:

`http://localhost:3004/api/user/login`

```
{ "email": "parija.parekh@gmail.com",  
  "password": "abc18107" }
```
